Guidelines for MOOCs credit transfer (2022 Fall Semester)

I. Important Schedule

A. You are advised to register courses on Coursera with NTU e-mail and begin the lesson right after getting this notification, if you are interested in online learning.

B. Please confirm the name verification on the settings page and upload the course completion proof page, and submit your score (round it to the nearest whole number) to the system between Nov 7 (Mon.), 2022 and Nov 28 (Mon.), 2022, to enroll for terminal assessment.
For the certificate of completion of the course, please take a screenshot of the computer screen, merge it into a pdf file and upload, the example is attached, and the content of the screenshot must include:
   1. Setting page: Displays registered with the school mailbox and passed the name verification.
   2. Grades page: course name, confirmation of completion of all assignments, course grades, weekly grades.
If the above conditions are not met, the application will be returned.

C. Attend the terminal assessment (on-site exam on Dec 10, or submit the final report/research proposal by Dec 11), depending on course requirement.

II. Course Information

A maximum of 6 credits from MOOCs (Massive Open Online Courses) is counted toward the liberal education requirement.
The following 2 courses are taught in English:

- Taiwan Law in Focus: Economy ,Society and Democracy (Professor Jiunn-rong Yeh of Low; 1.5 credit; Gen Edu's "Civil Awareness and Social Analysis (A5)" area)
  - Students are required to attend an on-site exam, in addition to the completion of the online requirement. The exam is scheduled to be held on Dec 10 (Sat.), 2022, 8:10 AM~10:00 AM.
  - The on-site exam weighs for 100%.
  - The on-site exam time of this course is the same as that of "Programming for Business Computing in Python". Students can only choose one to register for the exam.

- Operations Research: Models and Algorithms (Professor Ling-Chieh Kung of Information Management; 2 credits; Gen Edu's "Quantitative Analysis and

Mathematics (A6)" area)

– Both of [Operations Research (1): Models and Applications] and [Operations Research (2): Optimization Algorithms] are indispensable, none can be excluded.

– Students are required to attend an on-site exam, in addition to the completion of the online requirement. The exam is scheduled to be held on Dec 10 (Sat.), 2022, 2:20 PM~**4:40 PM.**

– Grading breakdown: 40% online requirement and 60% on-site exam.

– The on-site exam time of this course is the same as that of "Tang Poetry". Students can only choose one to register for the exam.

The following 9 courses are taught in Chinese:

• [Ci Poetry of Su Dong Po] (Professor Siu-Hung Lau of Chinese Literature; 1 credit; Gen Edu's "Literature and Arts (A1)" area)

– In addition to completion of the online requirement, students are required to submit a final report by Dec 11 (Sun.), 2022.

– The final report weighs for 100%.

• [Tang Poetry] (Professor Li-Chuan Ou of Chinese Literature; 1 credit; Gen Edu's "Literature and Arts (A1)" area)

– Students are required to attend an on-site exam, in addition to the completion of the online requirement. The exam is scheduled to be held on Dec 10 (Sat.), 2022, 2:20 PM~4:20 PM.

– Grading breakdown: 100% on-site exam.

– The on-site exam time of this course is the same as that of "Operations Research: Models and Algorithms". Students can only choose one to register for the exam.

• East Asian Confucianisms: Mencius (Professor Chun-Chie Huang of Center for General Education; 2 credits; Gen Edu's "World Civilization (A3)" area, "Philosophy and Moral Reasoning (A4)" area)

– Both of [East Asian Confucianisms: Mencius (1)] and [East Asian Confucianisms: Mencius (2)] are mutual conditional and integral, none can be excluded.

– In addition to completion of the online requirement, students are required to submit a final report by Dec 11 (Sun.), 2022.

– Grading breakdown: 40% online requirement , 20% 2 assignments and 40% final report. (2 assignments and final report must be uploaded to

NTU COOL)
  - – Completion requirements for online courses: "Peer review" will be marked by the teaching assistants (no need to give points for each other), and the uploaded file name must be named "student number_name" to facilitate the teaching assistants' review. For files not named according to the regulations, the teaching assistants will Not rated.
- [Understanding the Greek Philosophy](Professor Jeu-Jenq Yuann of Philosophy; 1 credit of Gen Ed's "Philosophy and Moral Reasoning (A4)" area)
  - – In addition to completion of the online requirement, students are required to submit a final report by Dec 11 (Sun.), 2022.
  - – The final report weighs for 100%.
- East Asian Confucianisms: Humanism (Professor Chun-Chie Huang of Center for General Education; 2 credit; Gen Edu's "Philosophy and Moral Reasoning (A4)" area)
  - – Both of [East Asian Confucianisms: Humanism (1)] and [East Asian Confucianisms: Humanism (2)] are mutual conditional and integral, none can be excluded.
  - – In addition to completion of the online requirement, students are required to submit a final report by Dec 11 (Sun.), 2022.
  - – Grading breakdown: 40% online requirement , 20% 2 assignments and 40% final report. (2 assignments and final report must be uploaded to NTU COOL)
  - – Completion requirements for online courses: "Peer review" will be marked by the teaching assistants (no need to give points for each other), and the uploaded file name must be named "student number_name" to facilitate the teaching assistants' review. For files not named according to the regulations, the teaching assistants will Not rated.
- [Experimental Economics: Behavioral Game Theory] (Professor Joseph Tao-yi Wang of Economics; 1 credit; Gen Edu's "Civil Awareness and Social Analysis (A5)" area, "Quantitative Analysis and Mathematics (A6)" area)
  - – In addition to completion of the online requirement, students are required to submit a final research proposal by Dec 11 (Sun.), 2022.
  - – The final research proposal weighs for 100%, Note of style is TBA (this final research proposal shall not be the same one submitted on Coursera).
- Programming for Business Computing in Python (Professor Ling-Chieh Kung and Hsin-Min Lu of Information Management; 2 credit; Gen Edu's "Quantitative Analysis and Mathematics (A6)" area)

- All of [Programming for Business Computing in Python (1)](#), [Programming for Business Computing in Python (2)](#) and [Programming for Business Computing in Python (3)](#) are indispensable, none can be excluded.
- Students are required to attend an online quiz and an on-site exam, in addition to completion of the online requirement. The online quiz is scheduled to be held on Dec 8 (Thu.), 2022, 9:00 AM~11:59 PM and the on-site exam is scheduled to be held on Dec 10 (Sat.), 2022, 9:10 AM~12:10 AM. Students are required to bring their own laptop for this on-site exam.
- The on-site exam time of this course is the same as that of "Probability" and "Taiwan Law in Focus: Economy ,Society and Democracy". Students can only choose one to register for the exam.

- Probability (Professor Ping-Cheng Yeh of Electrical Engineering; 2 credit; Gen Edu's "Quantitative Analysis and Mathematics (A6)" area)
    - Both of [Probability (1)](#) and [Probability (2)](#) are mutual conditional and integral, none can be excluded.
    - Students are required to attend an on-site exam, in addition to completion of the online requirement. The exam is scheduled to be held on Dec 10 (Sat.), 2022, 10:20 AM~12:10 PM.
    - Grading breakdown: 50% online requirement and 50% on-site exam.
    - The on-site exam time of this course is the same as that of "Programming for Business Computing in Python". Students can only choose one to register for the exam.

- The Way of Toxicity: Food Safety (Professor Chih-Kang Chiang of Toxicology; 2 credit; Gen Edu's "Physical Science (A7)" area, "Life Science (A8)" area)
    - Both of [Food Safety & Toxicology](#) and [Food Safety＆Risk Analysis](#) are indispensable, none can be excluded.
    - In addition to completion of the online requirement, students are required to submit a final report by Dec 11 (Sun.), 2022.
    - The final report weighs for 100%.

III. Notes
  A. Students are required to log in Coursera in order to earn the credit(s) of MOOCs.
  B. Study consultation is available in the discussion forum if there is any problem with reference to online learning; and/or contact Coursera Help Center for system operational issues, if any.
  C. There might be pop-up reminder on Coursera to suggest you to reset your

course deadlines. Please ignore that reminder and submit your work and complete course on your own schedule.

D. Courses on Coursera include peer reviewed assignments, please note:
   – Please be sure to submit your peer-reviewed assignments in time to get enough reviews (i.e., you are strongly recommended to log in and take course(s) ASAP to get enough peer reviews in fulfillment of online requirement).
   – Neither excuse nor request for make-up remediation afterward is acceptable.

E. Credit(s) earned from MOOCs during spring semester, 2022, can be counted toward liberal education requirement ONLY. If the course is offered by the student's major department, it WILL NOT be counted toward the fulfillment of the student's liberal education requirement.

F. Online courses will not be counted to graduation requirement if courses with the same title are taken from brick-and-mortar classroom.

G. For graduate students, a total of 70 points (B-) is the lowest passing grade.

H. Any forgery, plagiarism and cheat will be penalized according to relevant law.

I. Once applications are approved, students will be informed to take the on-site exam (or to submit the final report/research proposal).

J. You are strongly advised to contact the instructor actively if having an urgent need for, e.g., graduation, while not obtaining the assessment result in the end of the semester.

K. The course(s) and credit(s) earned from MOOCs will be marked on the transcript; the grade will not be counted to semester GPA nor graduation GPA.

L. No need to procure the certificate issued by Coursera as the testimonial.
