Announcement for MOOCs credit transfer (2024 Spring Semester)

I. Important Schedule

- A. It is recommended that you register for courses on Coursera and begin the lesson immediately after receiving this notification, if you are interested in online learning.
 Please register for Coursera using NTU e-mail and confirm the name verification on the settings page.
- B. Enroll for final assessment: 9 AM of April 15 (Mon.), 2024 5 PM of May 6 (Mon.), 2024

Please confirm the name verification on the settings page and upload the <u>course</u> <u>completion proof page</u>, and submit your score (round it to the nearest whole number) to the system.

For the certificate of completion of the course, please take a screenshot of the computer screen, merge it into a pdf file and upload, the example is <u>attached</u>, and the content of the screenshot must include:

- 1. Setting page: Displays registered with the school mailbox and passed the name verification.
- 2. Grades page: course name, confirmation of completion of all assignments, course grades, weekly grades.

If the above conditions are not met, the application will be returned.

- C. Attend the final assessment (on-site exam): May 18 (Sat.), 2024, depending on course requirements.
- D. Submit the final report: 5 PM of May 26 (Sun.), 2024, depending on course requirements.

II. Course Information

A maximum of 6 credits from MOOCs (Massive Open Online Courses) can be counted toward the liberal education requirements.

The following 2 courses are taught in Chinese:

- <u>Tang Poetry</u> (Professor Li-Chuan Ou of Chinese Literature; 1 credit; Gen Edu's "Literature and Arts (A1)" area)
 - Students are required to attend an on-site exam in addition to completing the online requirements. The exam is scheduled to be held on May 18 (Sat.), 2024, from 8:10 AM to 10:10 AM.
 - Grading breakdown: 100% on-site exam.
 - This course is only open to non-chinese literature majors.
- The Way of Toxicity: Food Safety (Professor Chih-Kang Chiang of Toxicology; 2 credit; Gen Edu's "Physical Science (A7)" area, "Life Science (A8)" area)
 - To be considered as having completed the online course, you must successfully

complete both Coursera courses, "<u>Food Safety & Toxicology</u>" and "<u>Food Safety</u> <u>& Risk Analysis</u>".

- In addition to completion of the online requirement, students are required to submit a final report by 5 PM of May 26 (Sun.), 2024.
- The final report weighs for 100%.

III. Notes

- A. Students are required to log in Coursera in order to earn the credit(s) of MOOCs.
- B. Study consultation is available in the discussion forum if there is any problem with reference to online learning; and/or contact Coursera Help Center for system operational issues, if any.
- C. There might be pop-up reminder on Coursera to suggest you to reset your course deadlines. Please ignore that reminder and submit your work and complete course on your own schedule.
- D. Courses on Coursera include peer reviewed assignments, please note:
 - Please be sure to submit your peer-reviewed assignments in time to get enough reviews (i.e., you are strongly recommended to log in and take course(s) ASAP to get enough peer reviews in fulfillment of online requirement).
 - Neither excuse nor request for make-up remediation afterward is acceptable.
- E. Credit(s) earned from MOOCs during spring semester, 2024, can be counted toward liberal education requirement ONLY. If the course is offered by the student's major department, it WILL NOT be counted toward the fulfillment of the student's liberal education requirement.
- F. Online courses will not be counted to graduation requirement if courses with the same title are taken from brick-and-mortar classroom.
- G. For graduate students, a total of 70 points (B-) is the lowest passing grade.
- H. Any forgery, plagiarism and cheat will be penalized according to relevant law.
- I. Once applications are approved, students will be informed to take the on-site exam (or to submit the final report/research proposal).
- J. You are strongly advised to contact the instructor actively if having an urgent need for, e.g., graduation, while not obtaining the assessment result in the end of the semester.
- K. The course(s) and credit(s) earned from MOOCs will be marked on the transcript; the grade will not be counted to semester GPA nor graduation GPA.
- L. No need to procure the certificate issued by Coursera as the testimonial.
