Pilot Subsidization Guidelines for English Paper Editing

- I. In order to encourage doctoral students to publish their research papers in international journals, strengthen students' research capabilities, pursue excellence, increase the number of published papers, enhance students' competitiveness, and foster international academic exchange, the Center for Teaching and Learning Development (hereinafter referred to as the CTLD) of Office of Academic Affairs at National Taiwan University has established the "Pilot Subsidization Guidelines for English Paper Editing" (hereinafter referred to as "the Guidelines").
- II. Funding Source: The fund for implementing the Guidelines comes from the service fees of the "Excellence Improvement Program for Doctoral Students", which is sponsored by the National Science and Technology Council. The implementation period for this year starts from October 2022 and ends in September 2023. Papers that have not been sponsored by other funding (e.g. National Science and Technology Council Special Research Project) have the priority to be subsidized.
- III. Subjects for the subsidy: Doctoral students of National Taiwan University who are the first author or the corresponding author of the paper to be published.
- IV. Principles of Subsidization:
 1. The paper should be submitted to international journals that are included in SCI (Science Citation Index), SSCI (Social Science Citation Index), or A&HCI (Arts & Humanities Citation Index).
 2. If the journal, which the paper is to be submitted to, does not meet the above-mentioned qualification, students can still apply for the subsidy for papers that meet the requirements of faculty promotion qualification at each college; proofs of qualification should be presented.
 3. If the paper is submitted to other academic publications with a review mechanism (e.g. monographs, specialized chapters, proceedings) in a foreign language and is in need of editing, students may also apply for the subsidy.
- V. How to apply: Applicants must fill out the application form and provide the original paper (this is needed only for the CTLD to evaluate the amount of subsidy required and it will not be used or disclosed for any other purposes) along with the quotation if the editing will be performed by an editing company. After the application is approved by the CTLD, applicants may contact editor(s) or an editing company to start the editing process.

VI. Subsidy standard:

1. The standard is based on the “NTU Payment Standards for Translation, Editing, and Proofreading of Academic Works in Foreign Languages.”
2. Each applicant can only apply the subsidy for one paper every year, and the maximum amount of subsidy is NT\$8,000. If the subsidized paper is published, the applicant may receive additional subsidy in the same year for the same number of paper published.

VII. Reimbursement: After the editing is finished, the applicant must send the full text of the edited paper, the original copy of the editor’s receipt (signature is required for electronic receipts), and the photocopy of the publisher’s response letter to the CTLD. The reimbursement will be verified via the accounting process of NTU. Also, according to the accounting regulations, receipts should be presented in the same year as the application, or else the reimbursement will be invalid.

VIII. All papers receiving subsidy based on the Guidelines should include the following sentence: “This article was subsidized for English editing by National Taiwan University under the Excellence Improvement Program for Doctoral Students (grant number 108-2926-I-002-002-MY4), sponsored by National Science and Technology Council, Taiwan.” in its Acknowledgement or Funding section.

IX. If the “Excellence Improvement Program for Doctoral Students” demands a presentation of research results, the qualified applicants of the Guidelines are obliged to attend the presentation and provide relevant information.

Application Form for Subsidization of English Paper Editing

2022/09/29 version

Date of Application (YYYY/MM/DD): _____

Name of Applicant		Department	
Phone		Email	
Paper to be published	Title:		
	Word Count of the Full Text (in English):		
Field	<input type="checkbox"/> To be published in SCI journals (Discipline: _____) <input type="checkbox"/> To be published in SSCI or A&HCI journals (Discipline: _____) <input type="checkbox"/> Other, please explain:		
Name of the Intended Journal			
Type of the Author	<input type="checkbox"/> First Author <input type="checkbox"/> Corresponding Author (Multiple answers are allowed)		

Identification of Editing Company or Individual Editor(s)	(Note: Paid employees of NTU are not eligible to receive this subsidy.)		
Estimated Amount of Subsidy		Amount of Subsidy Granted	(Response of the case officer)
Remarks			

※ Please fill out the application form and complete the signatures below. Email the scanned application form along with the original paper (and the quotation if the editor is an editing company) to the case officer at the CTLD ([wanjihh@ntu.edu.tw](mailto:wanjhih@ntu.edu.tw)), and wait for the CTLD to reply with the “Accepted” notice and the determined maximum subsidy. Once the editing is finished, the applicant must send the full text of the edited paper, the original copy of the editor’s receipt (the amount has to match the granted subsidy), or the original copy of the receipt from the editing company (photocopy of the credit card bill is needed if the applicant has paid by credit card), and the photocopy of the publisher’s response letter to the CTLD for reimbursement (based on the “NTU Payment Standards for Translation, Editing, and Proofreading of Academic Works in Foreign Languages”). If the applicant wishes to share the expense with other funds, please attach the photocopies of the receipts and provide the number(s) of the shared affixing form(s).
